US-09-733-294A-89/c

Squence 89, Application US/09733294A

Patent No. US20020045588A1

GENERAL INFORMATION:
APPLICANT: Brett P. Monia

APPLICANT: Susan M. Freier

APPLICANT: Gaarde

APPLICANT: Edward V. Wancewicz

TITLE OF INVENTION: ANTIENSE MODULATION OF TERT EXPRESSION

FILE REFERENCE: ISPH-0527

CURRENT FILING DATE: 2000-12-07

PRIOR PRING PAPLICATION NUMBER: 09/572,423

PRIOR PLING DATE: 2000-05-16

SEQ ID NO 89

SEQ ID NO 89

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        Sequence 3, Application US/10199559;
Sequence 3, Application US/10199559;
Publication No. US2003009997541
GENERAL INFORMATION:
APPLICANT: Syngenta Biotechnology Inc.
APPLICANT: Barnett, Charles Jason.
APPLICANT: Beck, Jim
TILLE OF INVENTION: Detection of Almond Pathogens Using the Polymerase;
TILLE OF INVENTION: Chain Reaction.
FILE REFERENCE: 60063P1
CURRENT APPLICATION NUMBER: US/10/199,559
CURRENT FILING DATE: 2002-07-19
PRIOR APPLICATION NUMBER: US/09/939,379B
NUMBER OF SEQ ID NOS: 30

RESULT 564

US-10-180-762-41/C

Sequence 41, Application US/10180762

Sequence 41, Application US/10180762

Sequence 41, Application No. US20030022838A1

GENERAL INFORMATION:

APPLICANT: Sheppard, Paul O.

APPLICANT: Bishop, Paul D.

TITLE OF INVENTION: INHIBITORS FOR USE IN HEMOSTASIS AND IMMUNE FUNCTION

FILE REFERENCE: 99-12C3

CURRENT APPLICATION NUMBER: US/10/180,762

CURRENT APPLICATION NUMBER: 09/244,794

PRIOR FILING DATE: 1999-02-19

PRIOR FILING DATE: 1999-11-22

PRIOR FILING DATE: 1999-11-22

PRIOR FILING DATE: 1999-02-17

NUMBER OF SEQ ID NOS: 55

SOFTWARE: FastSEQ for Windows Version 3.0

SEQ ID NO 41
